

Seed Search documentation

I. List varieties of your home-grown seed or root stock to be used

II. List varieties of organic seed or rootstock to be used with name of supplier. Keep records to support this and have them available for the evaluator.

Variety	Supplier	Variety	Supplier

III. List varieties of conventional untreated seed or rootstock to be grown. Note attempts to find an organic source. Include non-GMO statement for non-organic seed

Variety	Who did you call? List at least 3 attempts. Note reason as A) not available, B) unsuitable quality, or C) other (explain)
