

Input Materials

Use this form to list all Crop Material Inputs to be used in your Biodynamic® operation, including but not limited to non-synthetic materials, formulated products, mulches, compost, compost tea, potting soil, spreader-stickers, Biodynamic preps, etc. It is your responsibility to ensure materials are approved for use by Demeter prior to use. Demeter accepts OMRI and WSDA reviews; however, some materials allowed for NOP organic are not allowed for Demeter. For materials not appearing on either of these lists, a separate review must be conducted by Demeter. Include a Request for Material Input Review for each material not listed on OMRI or WSDA.

This form must be updated whenever new materials are added to your Biodynamic® system plan.

FARM NAME:

CLIENT NAME:

For each input listed please provide the following:

- 1. A picture of the exact product.**
- 2. Current OMRI Certificate or other organic verification documentation, if available.**

Complete Product Name	Manufacturer	Ingredients	3 rd Party Verification	Reason for Use	Approval Demeter office use
<i>EXAMPLE: Kumulus DF</i>	<i>Ex. Wilbur- Ellis Co</i>	<i>ex: Sulfur- elemental</i>	<i>ex: OMRI w/restrictions</i>	<i>ex: mildew prevention</i>	<i>ex: AB Jan2019</i>

Complete Product Name	Manufacturer	Ingredients	3 rd Party Verification	Reason for Use	Approval Demeter office use
